Industrial Symbiosis in Sotenäs

- > Fish and fish egg
- - - - -> Waste water
- > Waste from fish processing
- > Waste from the sea
- - - - -> Clean water

CIS Sotenäs will ensure:

- cross organization collaboration through real-time data sharing, which will increase effectiveness, efficiency and transparency of the industrial symbiosis system.
- that the platform becomes an IoT-Hubb which can benefit actors beyond the project.
- that industrial symbiosis in Sotenäs becomes a leading example in Sweden and abroad.
